Data in Many Forms...

Statistics Canada disseminates data in a variety of forms. In addition to publications, both standard and special tabulations are offered on computer print-outs, microfiche and microfilm, and magnetic tapes. Maps and other geographic reference materials are available for some types of data. Direct access to aggregated information is possible through CANSIM, Statistics Canada's machine-readable data base and retrieval system.

How to Obtain More Information

Inquiries about this publication and related statistics or services should be directed to:

Postsecondary Education Section,
Education, Science and Culture Division,
Statistics Canada, Ottawa, K1A 0Z5,
(Telephone: 995-1105)

or to the Statistics Canada reference centre in:

| | |
|-----------------------|----------------------|
| St. John's (772-4073) | Winnipeg (949-4020) |
| Halifax (426-5331) | Regina (359-5405) |
| Montréal (283-5725) | Edmonton (420-3027) |
| Ottawa (992-4734) | Vancouver (666-3691) |
| Toronto (966-6586) | |

Toll-free access is provided in all provinces and territories, for users who reside outside the local dialing area of any of the regional reference centres.

How to Order Publications

This and other Statistics Canada publications may be purchased from local authorized agents and other community bookstores, through the local Statistics Canada offices, or by mail order to Publication Sales and Services, Statistics Canada, Ottawa, K1A 0V7.

Des données sous plusieurs formes...

Statistique Canada diffuse les données sous formes diverses. Outre les publications, des totalisations habituelles et spéciales sont offertes sur imprimés d'ordinateur, sur microfiches et microfilms et sur bandes magnétiques. Des cartes et d'autres documents de référence géographiques sont disponibles pour certaines sortes de données. L'accès direct à des données agrégées est possible par le truchement de CANSIM, la base de données ordiolinguage et le système d'extraction de Statistique Canada.

Comment obtenir d'autres renseignements

Toutes demandes de renseignements au sujet de cette publication ou de statistiques et services connexes doivent être adressées à:

Section de l'enseignement postsecondaire,
Division de l'éducation, des sciences et de la culture,
Statistique Canada, Ottawa, K1A 0Z5,
(téléphone: 995-1105)

ou au centre de consultation de Statistique Canada à:

| | |
|-----------------------|----------------------|
| St. John's (772-4073) | Winnipeg (949-4020) |
| Halifax (426-5331) | Regina (359-5405) |
| Montréal (283-5725) | Edmonton (420-3027) |
| Ottawa (992-4734) | Vancouver (666-3691) |
| Toronto (966-6586) | |

Un service d'appel interurbain sans frais est offert, dans toutes les provinces et dans les territoires, aux utilisateurs qui habitent à l'extérieur des zones de communication locale des centres régionaux de consultation.

SYMBOLS

The following standard symbols are used in Statistics Canada publications:

- .. figures not available.
- ... figures not appropriate or not applicable.
- nil or zero.
- amount too small to be expressed.
- P preliminary figures.
- r revised figures.
- x confidential to meet secrecy requirements of the Statistics Act.

SIGNES CONVENTIONNELS

Les signes conventionnels suivants sont employés uniformément dans les publications de Statistique Canada:

- .. nombres indisponibles.
- ... n'ayant pas lieu de figurer.
- néant ou zéro.
- nombres infimes.
- P nombres provisoires.
- r nombres rectifiés.
- x confidentiel en vertu des dispositions de la Loi sur la statistique relatives au secret.

INTRODUCTION

This publication provides in one volume data on fall enrolment in Canadian universities for the 1980-81 academic year (Series A) and on degrees, diplomas and certificates awarded by these institutions during the 1980 calendar year (Series B). Prior to 1976 these statistics were presented in two separate publications: Catalogue 81-204 for enrolments and Catalogue 81-211 for graduations.

It is important to note that the figures which appear in the enrolment tables are in fact student "head counts" as of December 1st whereas the figures in the graduation tables could justifiably be termed "qualification counts" for the calendar year ending in December. To elaborate, this means that each student who attends a university in the fall session is counted only once annually, regardless of the number of programs in which the student is enrolled; but at graduation it is the number of degrees, diplomas and certificates awarded that are counted, not the individual student who received them. Hence, a student in a joint MBA/LLB program would be counted only once each year for the enrolment survey but upon graduating, the two degrees the student receives would be included in the graduation survey.

The names of the institutions reporting to Statistics Canada are shown in Tables 5 and 6 for the enrolment survey and Table 21 for the graduation survey. In each case, affiliated institutions are denoted by indentation. Data for affiliated colleges not listed in these tables are invariably incorporated in the parent institution's figures. In the case of the Université du Québec, however, there is no parent institution per se; all branches simply add up to the total for the institution. This is denoted by italicizing Université du Québec in Tables 5, 6 and 21.

The enrolment and the graduation tables presented in this publication are the product of two separate surveys conducted by Statistics Canada. Each of these surveys covers all degree-granting institutions. For the enrolment survey, each institution uses its registration file to provide an annual

INTRODUCTION

La présente publication fournit en un seul volume des données sur les inscriptions d'automne dans les universités canadiennes pour l'année scolaire 1980-81 (la série A), ainsi que sur les grades, diplômes et certificats décernés par ces établissements pendant l'année civile 1980 (la série B). Avant 1976, ces statistiques paraissaient dans deux publications distinctes: le n° 81-204 au catalogue pour ce qui est des inscriptions et le n° 81-211 au catalogue pour les grades.

Il est important de noter que les chiffres qui figurent dans les tableaux sur les inscriptions représentent en fait le nombre réel d'étudiants au 1^{er} décembre, tandis que ceux des tableaux sur les grades représentent le nombre de titres décernés durant l'année civile qui se termine en décembre. Plus précisément, cela signifie que chaque étudiant qui fréquente une université à l'automne est compté seulement une fois l'an, peu importe le nombre de programmes auxquels il est inscrit; mais, à la collation des grades, c'est le nombre de grades, de diplômes et de certificats décernés qui est pris en compte et non le nombre d'étudiants qui les reçoivent. Donc un étudiant inscrit à la fois à un programme de licence et de baccalauréat est dénombré seulement une fois l'an dans l'enquête sur les inscriptions, mais à la fin du programme, ce sont les deux grades qu'il reçoit qui sont pris en compte dans l'enquête sur les grades.

Le nom des établissements qui ont présenté une déclaration à Statistique Canada figure aux tableaux 5 et 6 dans le cas de l'enquête sur les inscriptions et au tableau 21 en ce qui concerne l'enquête sur les grades décernés. Dans chaque cas, les établissements affiliés sont en retrait. Les données des collèges affiliés dont le nom ne se trouve pas dans les listes figurent toujours dans le total de l'établissement auquel ils sont rattachés. Dans le cas de l'Université du Québec, cependant, il n'existe pas d'établissement principal; les chiffres de chaque constituante sont additionnés pour former le total de l'établissement. Pour cette raison, le terme "Université du Québec" est en italique aux tableaux 5, 6 et 21.

Les tableaux sur les inscriptions et les grades décernés contenus dans la présente publication proviennent de deux enquêtes distinctes menées par Statistique Canada auprès de tous les établissements qui décernent des grades au pays. Chacun de ces établissements fait une déclaration annuelle à Statistique Canada à partir de son

report on student enrolment. The institution has the option of submitting either aggregated data on forms or individual student data on computer tapes or code sheets. A data base, called the University Student Information System - Enrolment (USIS - Enrolment), is then created by putting together the student records from all the tapes and code sheets submitted by institutions. In 1980-81, this meant that records on 98% (up from 89% in the previous year) of university students were on the USIS file with the remaining 2% having been reported in an aggregated form. The marked increase is due to the addition of the Université du Québec and a number of Maritime institutions to the USIS - Enrolment system. The enrolment publication tables are produced by adding together figures from universities reporting on forms together with tabulations extracted from the USIS - Enrolment file. The procedure in the graduation survey and tabulation is essentially the same with one exception: all institutions, including those that report on forms, end up on the University Student Information System - Graduating (USIS - Graduating) file. This can be accomplished because, unlike the enrolment survey, only very basic information is requested which can easily be transferred to tape.

With the two USIS data files available, it is possible for users to obtain special request tabulations apart from those found in this publication. For example, data can be distributed at a finer level or cross-classified in a variety of ways. Furthermore, the USIS - Enrolment file offers a number of social and educational characteristics of students not presented in the tables of this publication such as duration of program of study, expected year of completion and previous year's activity. However, these special tabulations will not comprise the 2% of enrolment not included in the USIS - Enrolment survey.

Intensified efforts are presently being made to complete the computerization of both the enrolment and the degree reporting systems. Attempts are also being made to obtain co-operation of institutions in the establishment of a link between the enrolment and the degree files. This link would permit the expansion of the limited number of degree elements through access of the enrolment file. Both improvements to the systems may, when possible, be carried back historically to the start of the USIS program, thus permitting full comparability of data between years.

fichier d'inscriptions, soit sous forme de données globales au moyen de formulaires, soit sous forme de données individuelles, par étudiant, sur bandes d'ordinateur ou sur feuilles de codage. À partir de ces données, Statistique Canada établit une base de donnée appelée "Système d'information statistiques sur la clientèle universitaire" (Fichier des inscriptions SISCO) en réunissant les données sur les étudiants contenues dans toutes les bandes et feuilles de codage envoyées par les établissements. En 1980-81, on a enregistré dans le fichier SISCO les données s'appliquant à 98% des étudiants (comparativement à 89% en 1979-80), celles sur les autres étudiants (2%) ayant été fournies au moyen de formules. Cette augmentation marquée découle de l'intégration des données de l'Université du Québec et de certains établissements des provinces Maritimes au fichier SISCO. Les tableaux de la présente publication sont le résultat de l'addition des données contenues sur les formules et des tableaux établis à partir du fichier SISCO. La façon de procéder est essentiellement la même dans le cas de l'enquête sur les grades, sauf que les déclarations de tous les établissements, y compris celles faites sur des formules, sont mises dans le fichier des grades SISCO. Cette opération est possible dans ce cas parce que, contrairement à l'enquête sur les inscriptions, l'enquête sur les grades ne nécessite que des renseignements de base, facilement transposables sur bandes.

Les deux bases de données du SISCO permettent aux utilisateurs d'obtenir des tableaux spéciaux ne figurant pas dans la présente publication, par exemple des données décomposées à un niveau plus détaillé ou regroupées de différentes façons. Le fichier des inscriptions SISCO offre de plus un certain nombre de renseignements non publiés sur des caractéristiques sociales et la scolarité des étudiants, portant entre autres sur la durée du programme d'étude, l'année prévue pour l'achèvement du programme et la principale activité de l'étudiant durant l'année précédente. Ces tableaux spéciaux ne tiennent cependant pas compte des données sur les étudiants (2%) non compris dans l'enquête sur les inscriptions SISCO.

Nous nous efforçons actuellement d'informer complètement les systèmes de déclaration sur les inscriptions et sur les grades décernés. Nous tentons aussi d'obtenir la collaboration des établissements en vue de la création d'un lien entre le fichier des inscriptions et le fichier des grades. Ce lien permettrait d'accroître le nombre limité de données sur les grades, par l'accès au fichier des inscriptions. Ces améliorations pourront avec le temps, être apportées aux bases de données antérieures, ce qui permettrait de faire toutes les comparaisons voulues d'une année à l'autre à partir du début du programme SISCO.

A number of conceptual and format changes have been initiated for the publication this year and will continue for the next few years until the desired improvement of the publication is achieved. For example, it has been decided, following institutional and international views, that medical interns and residents as well as students enrolled in the old "non-university" category would be considered regular university students. Thus, contrary to the situation in previous publications, these categories are now reflected in all the enrolment tables rather than only in the tables by institution. Some format changes or additions have also been made, namely addition of historical tables and a summary degree table, clarification of information concerning foreign students, a new field of study breakdown for the bachelor and first professional degree enrolment table to make it consistent with the tables on graduate enrolment, more liberal use of highlighting techniques such as bold facing, indentation, italicizing, etc. We feel that these changes along with a more streamlined text will make the publication more useful as a reference document.

Cette année, des modifications ont été apportées à la présentation et à la conception de la publication et elles se poursuivront encore quelques années jusqu'à ce qu'on obtienne l'amélioration voulue. Suivant les opinions formulées à l'échelle universitaire et internationale, il a été décidé de considérer les internes et les résidents en médecine ainsi que les étudiants de l'ancienne catégorie "non universitaire" comme des étudiants universitaires ordinaires. Contrairement à la situation qui existait dans les publications antérieures, ces catégories d'étudiants figurent dans tous les tableaux sur les inscriptions de la publication, et non seulement dans les tableaux par établissement. La présentation de la publication a aussi été modifiée; soulignons l'ajout de tableaux chronologiques et d'un sommaire sur les grades, l'éclaircissement des données sur les étudiants étrangers, une nouvelle ventilation des inscriptions par domaines d'étude au niveau du baccalauréat et du premier grade professionnel, plus conforme aux tableaux sur les inscriptions au niveau des autres cycles; soulignons aussi un emploi plus fréquent de divers procédés d'imprimerie comme les caractères gras, les retraits, l'italique, etc. Nous sommes convaincus que ces modifications, assorties d'un texte plus concis, feront de la présente publication un document de référence plus utile.

NOTES OF CAUTION

For the first time since 1973, there has been a revision made in 1979 to the classification of disciplines (program of study and specialization). This has resulted in a clearer reporting of the general programs in arts and in sciences, an amalgamation of forestry and forestry engineering and a deletion of such general categories as humanities, social sciences, mathematics and physical sciences.

Since the Master's of Divinity degree is usually just a step on the road to a Master's of Theology, it has been decided that from 1979-80 on it will be counted as a first professional degree rather than a master's degree. This will account for an increase in the bachelor and first professional degree level in theology and a decrease at the master's level.

In Tables 5 and 6, which provide enrolment by institution, there are few name changes. Nova Scotia Technical College has been changed to Technical University of Nova Scotia, Centre d'études universitaires dans l'ouest québécois (Hull) is now Université du Québec à Hull, and Centre d'études universitaires dans l'ouest québécois (Rouyn-Noranda) has been changed to Centre d'études universitaires d'Abitibi-Témiscamingue.

Starting with this publication, all enrolment tables will include medical interns and residents and "non-university" students (technology or special interest courses not leading to a university degree, diploma or certificate). Interns and residents will be included in the full-time graduate level and "non-university" students will be incorporated in the "Other" category of the undergraduate level. Therefore:

"undergraduate" will include all undergraduate qualifications sought as well as preliminary or upgrading year, non-university, special auditing and all other undergraduate courses not taken for the purpose of obtaining a qualification;

"graduate" will include all graduate qualifications sought as well as master's qualifying year, special auditing, interns and residents and all other graduate courses not taken for the purpose of obtaining a qualification.

The term "non-Canadian" is used to denote students who do not possess a Canadian citizenship. It includes, therefore, both landed immigrants and persons with a student or other visa.

AVERTISSEMENTS

La classification des disciplines (programme d'étude et spécialisation) a subi une révision en 1979 pour la première fois depuis 1973. Cette révision a abouti à une meilleure déclaration des programmes généraux dans les beaux-arts et les sciences, à une fusion de la foresterie et du génie forestier et à la suppression des catégories générales telles que humanités, sciences sociales, mathématiques et sciences physiques.

Comme le grade Master's of Divinity n'est qu'une étape dans l'obtention d'une maîtrise en théologie, il a été décidé qu'à partir de 1979-80 il serait compté comme un premier grade professionnel au lieu d'une maîtrise. Ce changement aura l'effet d'augmenter le nombre de baccalauréats et de premiers grades professionnels en théologie et de diminuer le nombre de maîtrises en théologie.

Quelques collèges ont changé de noms dans les tableaux 5 et 6 sur le nombre d'inscriptions par institution. Nova Scotia Technical College est devenue Technical University of Nova Scotia, le nom du Centre d'études universitaires dans l'ouest québécois (Hull) est maintenant Université du Québec à Hull et le Centre d'études universitaires dans l'ouest québécois (Rouyn-Noranda) est devenue le Centre d'études universitaires d'Abitibi-Témiscamingue.

Dorénavant, tous les tableaux sur les inscriptions tiendront compte des internes, des résidents et des étudiants de "niveau non-universitaire" (cours en technologie ou d'intérêt spécial qui n'aboutissent pas à un grade, diplôme ou certificat universitaire). Les internes et les résidents seront inclus dans les niveaux du 2^e et 3^e cycles à plein temps et les étudiants du "niveau non-universitaire" figurant dans la catégorie "autres" du 1^{er} cycle. Donc:

par "1^{er} cycle", on entend tous les cours de 1^{er} cycle suivis pour l'obtention d'un titre ainsi que les études préliminaires ou de rattrapage, les études de niveau non-universitaire, les auditions libres et tous les autres cours de 1^{er} cycle non suivis pour l'obtention d'un titre;

par "2^e et 3^e cycles", on entend tous les cours du 2^e et 3^e cycles suivis pour l'obtention d'un titre ainsi que les inscriptions à une année préparatoire de maîtrise, les auditions libres, les internes et les résidents et tous les autres cours du 2^e et 3^e cycles non suivis pour l'obtention d'un titre.

Le terme "non-Canadien" sert à désigner les étudiants qui ne possèdent pas la citoyenneté canadienne. Il englobe donc les immigrants reçus et les titulaires d'un visa d'étudiants ou de tout autre visa.

There is no commonly accepted definition of a part-time student and as a result Statistics Canada has left the decision of determining full-time or part-time registration status to each reporting institution.

University transfer students studying in Community Colleges or CEGEP's in Nova Scotia, Quebec, Alberta and British Columbia are not included in this publication. They, however, should be taken into consideration in the calculation of indicators such as participation rates. A distribution of full-time Transfer Program students by province for fall 1980 follows:

| Nova Scotia | Québec | Alberta | British Columbia | Canada |
|-----------------|--------|---------|----------------------|--------|
| Nouvelle-Écosse | | | Colombie-Britannique | |
| 177 | 68,316 | 2,424 | 7,472 | 78,389 |

From 1974-75 to 1977-78, students enrolled in operational research at the Université du Québec à Trois-Rivières were inadvertently classified as being in engineering instead of being registered in commerce and business administration. The following table shows the number of students that should be subtracted from engineering and added to commerce and business administration if consulting previous editions of this publication.

| Year | Full-time | | | Part-time | | |
|---------|-------------|--------|-------|---------------|--------|-------|
| | Plein temps | | | Temps partiel | | |
| Année | Male | Female | Total | Male | Female | Total |
| | Hommes | Femmes | | Hommes | Femmes | |
| 1974-75 | 35 | 6 | 41 | 7 | - | 7 |
| 1975-76 | 36 | 9 | 45 | 6 | 1 | 7 |
| 1976-77 | 39 | 8 | 47 | 4 | 3 | 7 |
| 1977-78 | 42 | 11 | 53 | 9 | 3 | 12 |

Il n'existe aucune définition d'étudiant à temps partiel qui soit acceptée et reconnue par tous; chaque établissement déclarant a donc été libre de définir lui-même les notions de fréquentations à plein temps et à temps partiel.

Les étudiants provenant de la Nouvelle-Écosse, du Québec, de l'Alberta et de la Colombie-Britannique et inscrits à des programmes menant à l'université dans les CEGEP et les collèges communautaires ne sont pas pris en compte dans la présente publication. Ils doivent, cependant, être pris en considération dans le calcul de certains indicateurs comme le taux de participation universitaire. La répartition des étudiants inscrits à plein temps à des programmes menant à l'université par province à l'automne 1980 figure ci-dessous:

De 1974-75 à 1977-78, les étudiants en recherche opérationnelle de l'Université du Québec à Trois-Rivières étaient classés par erreur dans la catégorie du génie alors qu'il aurait dû être inscrits dans commerce et affaires. Le tableau suivant indique le nombre d'étudiants qui doivent être soustraits de la catégorie génie et ajouté à la catégorie commerce et administration des affaires pour que les données de la présente publication soient comparables à celles des éditions précédentes.

HIGHLIGHTS

As pointed out earlier, one of the major changes in presentation of the data this year is the inclusion of Interns, Residents and Non-university enrolments in the regular graduate and undergraduate university enrolments. This ends consideration of those categories to be special cases and brings them into the main stream of university enrolment in all the publication tables. Therefore, any data analysis whether current or historical will take these categories into consideration: non-university enrolment will be included in the undergraduate programs and Interns and Residents will be included in the graduate programs.

Enrolment

Full-time university enrolment reached a new high in 1980 of almost 383,000 eclipsing the previous high of 376,000 reached in 1976. Declining enrolments in 1977 and 1978 have been offset by gains in 1979 and 1980 (Text Table I). The growth trend evident in 1980 has already been confirmed as continuing with increases evident in 1981-82 from a preliminary analysis of the data for that year and in 1982-83 from early records of the Association of Universities and Colleges of Canada in the September issue of *Notes* from AUCC.

POINTS SAILLANTS

Comme il a été indiqué précédemment, une des principales modifications apportées à la présentation des données de cette année consiste à inclure les inscriptions d'internes, de résidents et d'étudiants qui figuraient dans la catégorie non universitaire, dans les données sur les inscriptions des étudiants de premier, de deuxième et troisième cycles. Cette modification met fin à la distinction faisant de ces catégories des cas spéciaux; dorénavant, ils figureront dans tous les tableaux sur les inscriptions des universités de notre publication. Il s'ensuit que toute analyse des données, tant actuelle qu'historique, tiendra compte de ces catégories: les inscriptions de niveau non universitaire seront incluses dans les données sur les inscriptions au premier cycle et celles des internes et les résidents dans les données sur les programmes des deuxième et troisième cycles.

Inscriptions

Les effectifs universitaires à plein temps ont de nouveau augmenté en 1980 atteignant près de 383,000 étudiants, en hausse par rapport au chiffre élevé de 376,000 enregistrés en 1976. La diminution des inscriptions en 1977 et en 1978 a été annulée par les augmentations observées en 1979 et en 1980. (Voir le tableau explicatif I.) La tendance à la croissance qui était évidente en 1980 s'est poursuivie, comme l'a confirmé l'analyse préliminaire des données, en 1981-82; et d'après les premiers relevés des inscriptions de septembre communiqués par l'Association des universités et collèges du Canada dans le numéro de septembre de l'*Info* de l'AUCC, elle s'est aussi maintenue en 1982-83.

TEXT TABLE I. Enrolment by Level, Type of Attendance and Year, Canada

TABLEAU EXPLICATIF I. Inscriptions selon le niveau, le type de fréquentation et l'année, Canada

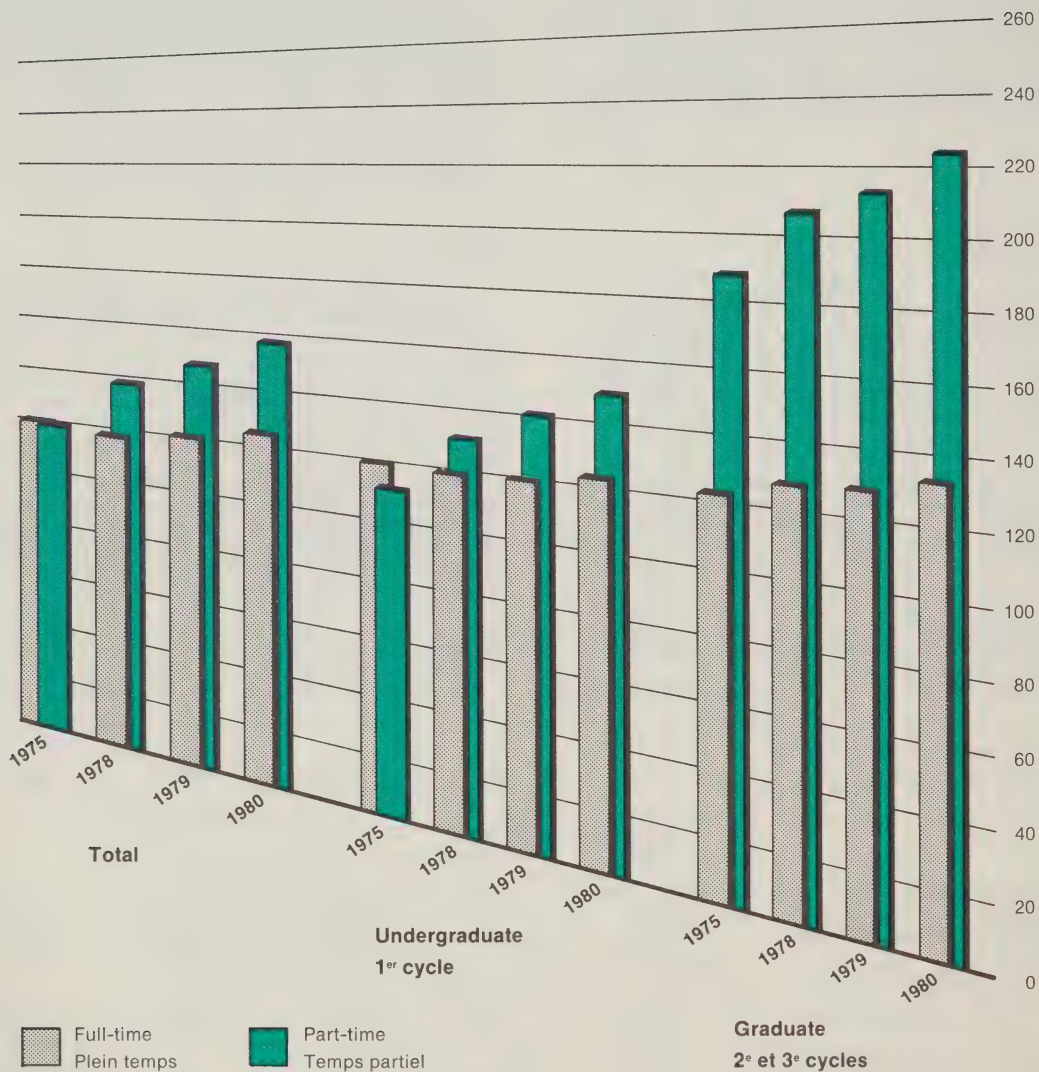

| Level and type of attendance | 1970 | 1975 | 1978 | 1979 | 1980 |
|---|----------------------|-------|-------|-------|-------|
| Niveau et type de fréquentation | | | | | |
| | thousands - milliers | | | | |
| Total enrolment | | | | | |
| Full-time - Plein temps | 310.0 | 370.5 | 368.0 | 371.5 | 382.5 |
| Part-time - Temps partiel | 156.5 | 185.0 | 216.5 | 230.0 | 245.0 |
| Undergraduate - 1 ^{er} cycle: | | | | | |
| Full-time - Plein temps | 276.5 | 329.5 | 325.5 | 328.5 | 338.0 |
| Part-time - Temps partiel | 142.0 | 158.5 | 186.5 | 199.0 | 213.0 |
| Graduate - 2 ^e et 3 ^e cycles: | | | | | |
| Full-time - Plein temps | 33.5 | 41.0 | 42.5 | 43.0 | 44.5 |
| Part-time - Temps partiel | 14.5 | 27.0 | 29.5 | 30.5 | 32.0 |

Figure 1

Growth in University Enrolment by Level and Type of Attendance, Canada

Augmentation des inscriptions universitaires selon le niveau et le type de fréquentation, Canada

1970=100

Since 1970, full-time undergraduate enrolment has increased by 22% while full-time graduate enrolment has gone up by 33%. Increases in part-time credit enrolment have been much more dramatic with increases of 50% and 120% for undergraduate and graduate respectively. These variations are also evident in Figure 1 which represents a comparison of growth indices using 1970 as a base year.

Depuis 1970, les effectifs à plein temps du 1^{er} et des 2^e et 3^e cycles ont progressé respectivement de 22% et de 33%. Les inscriptions d'étudiants à temps partiel à des cours dotés de crédits ont grimpé de façon beaucoup plus forte: de 50% et de 120% respectivement pour le 1^{er} et pour les 2^e et 3^e cycles. La figure 1, qui compare les indices de croissance en utilisant 1970 comme année de base, fait également ressortir ces variations.

TEXT TABLE II. Enrolment by Year and Field of Study, Canada

TABLÉAU EXPLICATIF II. Inscription selon l'année et le domaine d'étude, Canada

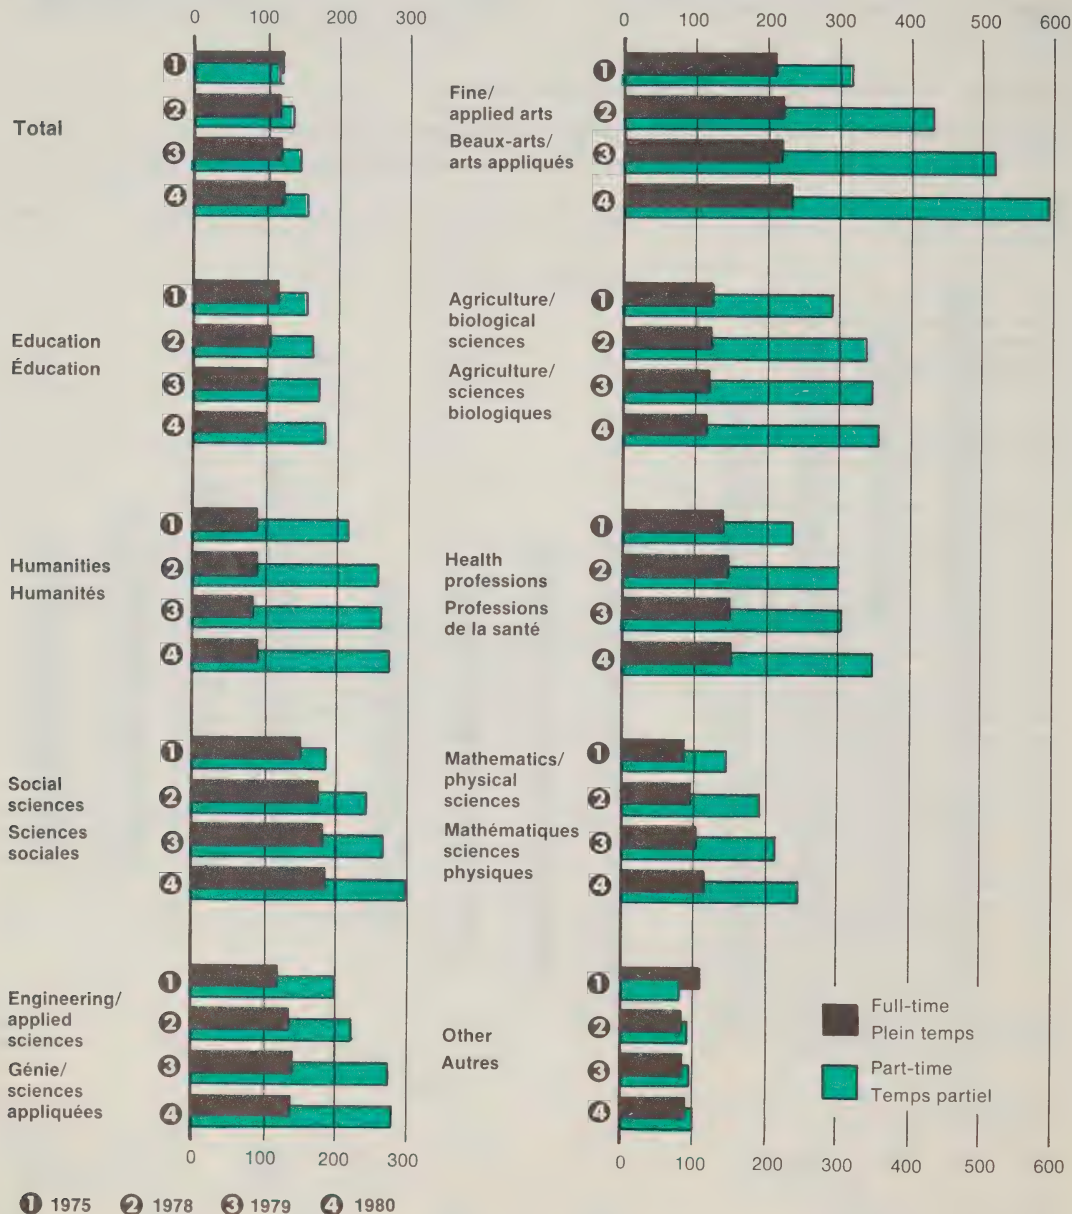

| Field of study Domaine d'étude | 1970 | 1975 | 1978 | 1979 | 1980 |

Figure 2

Growth in University Enrolment by Field of Study and Type of Attendance, Canada

Augmentation des inscriptions universitaires selon le domaine d'étude et le type de fréquentation, Canada

1970=100

Patterns of enrolment change are quite different, however, for each of the major fields of study (Text Table II and Figure 2). The social sciences made the highest gains in absolute terms: 50,000 full-time students and 44,000 part-time. Engineering and the health professions also made substantial gains of around 13,000 full-time and 4,000 part-time. While education lost some full-time students, it did gain 18,000 students on a part-time basis. As can be

L'évolution des effectifs varie cependant beaucoup d'un domaine d'étude à l'autre (voir le tableau explicatif II et la figure 2). Les sciences sociales affichent, en nombres absolus, les plus forts gains de 50,000 étudiants à plein temps et de 44,000 à temps partiel. Le génie et les professions de la santé ont aussi enregistré de fortes augmentations d'environ 13,000 étudiants à plein temps et 4,000 à temps partiel. L'éducation, qui a perdu quelques étudiants à plein temps, a gagné 18,000 étudiants à temps

TEXT TABLE III. Enrolment by Year and Province

TABLEAU EXPLICATIF III. Inscriptions selon l'année et la province

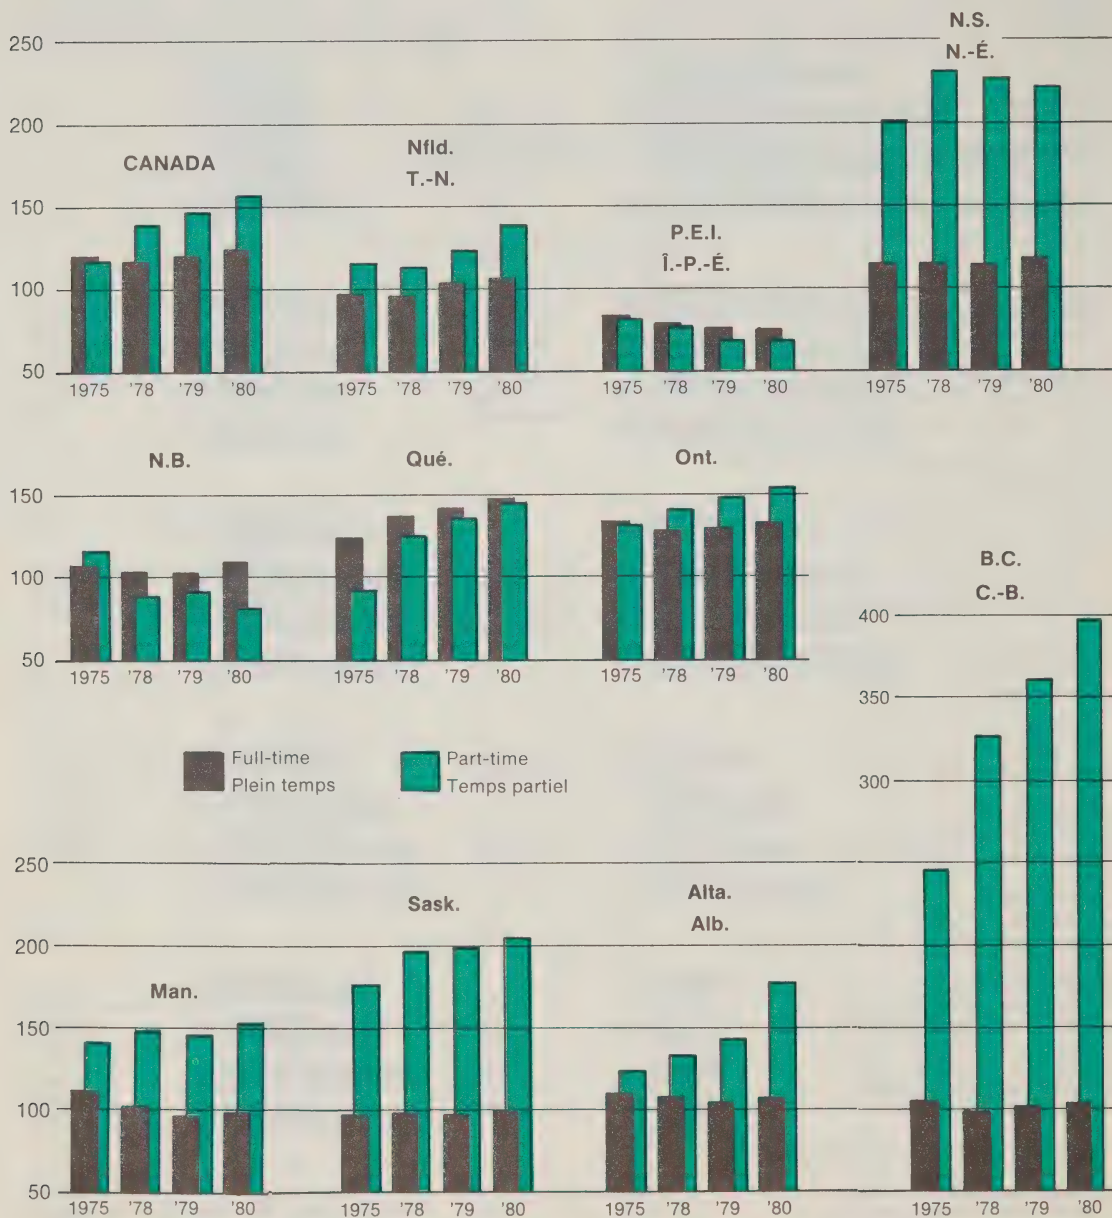

| Province | 1970 | 1975 | 1978 | 1979 | 1980 |

Figure 3

Growth in University Enrolment by Province and Type of Attendance

Augmentation des inscriptions universitaires, selon la province et le type de fréquentation

1970=100

observed in Figure 2, the growth in part-time enrolment has been phenomenal, especially in fine arts where enrolment has increased 6-fold. Agriculture, biological sciences and health professions have grown $3\frac{1}{2}$ times and social and engineering sciences 3-fold. Fine arts and the social sciences have also exhibited substantial growth in the number of full-time enrolments. Since 1970, fine arts grew by over 100% and the social sciences passed the 175% mark.

At the provincial level, the magnitude of change in full-time and part-time enrolment has not been nearly as dramatic as the changes observed for fields of study at the national level. As Text Table III and Figure 3 indicate, steady growth has occurred only in Quebec and Ontario where the increase in either full-time or part-time enrolment has been around or over 30,000. Full-time enrolment has not improved in the other provinces and has even declined slightly in Manitoba and Saskatchewan. As for part-time enrolment, there has been a sizeable increase (3,000 to 6,000) in all provinces and especially in British Columbia (11,000). Relatively speaking, the provinces which made the highest gains in part-time enrolment were British Columbia increasing 4-fold, Nova Scotia $2\frac{1}{2}$ -fold and Saskatchewan doubling since 1970 (Figure 3).

Degrees, Diplomas and Certificates

The number of university qualifications granted in 1980 was 114,000 indicating a continued trend of decline that started a year earlier (Text Table IV). The growth since 1970 (base year = 100) peaked in 1978 at 154, then dropped to 149 within the last two years (Figure 4). This trend has been much more dramatic in the case of males than in the case of females. In fact, the number of female graduates did not start declining until this year, after almost doubling since 1970 while the male growth index only went up to 122. This pattern is even more pronounced at the graduate level with the growth index for females going up to 254 as compared to only 129 in the case of males. If this growth differential continues, it will not be long before the number of females receiving qualifications will be the same as their male counterparts at probably around 54,000 each. While both sexes are now receiving approximately the same number of qualifications at the undergraduate level with 50,000 graduations each, the number of females receiving graduate qualifications is still lower.

partiel. Comme l'indique la figure 2, les effectifs à temps partiel ont grimpé de façon phénoménale, surtout dans le domaine des beaux-arts où ils ont sextuplé. En sciences agricoles et biologiques et dans les professions de la santé, le nombre d'étudiants est maintenant trois fois et demi plus élevé alors qu'en sciences sociales et en génie, il a triplé. Les beaux-arts et les sciences sociales ont également affiché une forte hausse des inscriptions à temps partiel, celles-ci ayant augmenté de plus de 100% et de plus de 175% respectivement depuis 1970.

La variation des effectifs est forte mais pas aussi marquée au niveau des provinces. Comme l'indiquent le tableau explicatif III et la figure 3, la croissance n'a été constante qu'au Québec et en Ontario, où les effectifs à plein temps ou à temps partiel ont augmenté d'environ 30,000, sinon plus. Les effectifs à plein temps n'ont pas augmenté autant dans les autres provinces, et ont même baissé légèrement au Manitoba et en Saskatchewan. Quant aux effectifs à temps partiel, ils ont augmenté considérablement (3,000 à 6,000) dans toutes les provinces, surtout en Colombie-Britannique (11,000). Toute proportion gardée, les provinces dont les effectifs à temps partiel ont enregistré les plus forts gains étaient la Colombie-Britannique (4 fois plus), la Nouvelle-Écosse (2,5 fois plus) et la Saskatchewan, où ils ont doublé depuis 1970 (voir la figure 3).

Grades, diplômes et certificats

En 1980, 114,000 grades, diplômes et certificats universitaires ont été décernés, la tendance à la baisse qui avait commencé à se manifester en 1979 s'est poursuivie (tableau explicatif IV). L'indice de la croissance depuis 1970 (année de base = 100) a atteint le sommet de 154 en 1978 avant de retomber à 149 au cours des deux dernières années (figure 4). Cette tendance est beaucoup plus marquée chez les hommes que chez les femmes. En fait, le nombre de diplômées n'a commencé à décliner que cette année, alors qu'il avait presque doublé depuis 1970. L'indice chez les hommes n'atteint que 122. Cette tendance est encore plus prononcée au niveau des deuxième et troisième cycles où l'indice de croissance du nombre d'étudiants a atteint 254 alors que celui des étudiants s'élevait à seulement 129. Si cette tendance se poursuit, le nombre d'étudiants et d'étudiantes s'équivalra bientôt, probablement aux alentours de 54,000 chacun. Alors que maintenant les deux séries reçoivent approximativement le même nombre de grades au niveau du premier cycle où le nombre d'étudiants et d'étudiantes est de 50,000 chacun, le nombre de diplômées au niveau des deuxième et troisième cycles est encore moindre.

TEXT TABLE IV. Degrees, Diplomas and Certificates Granted by Level, Sex and Year, Canada

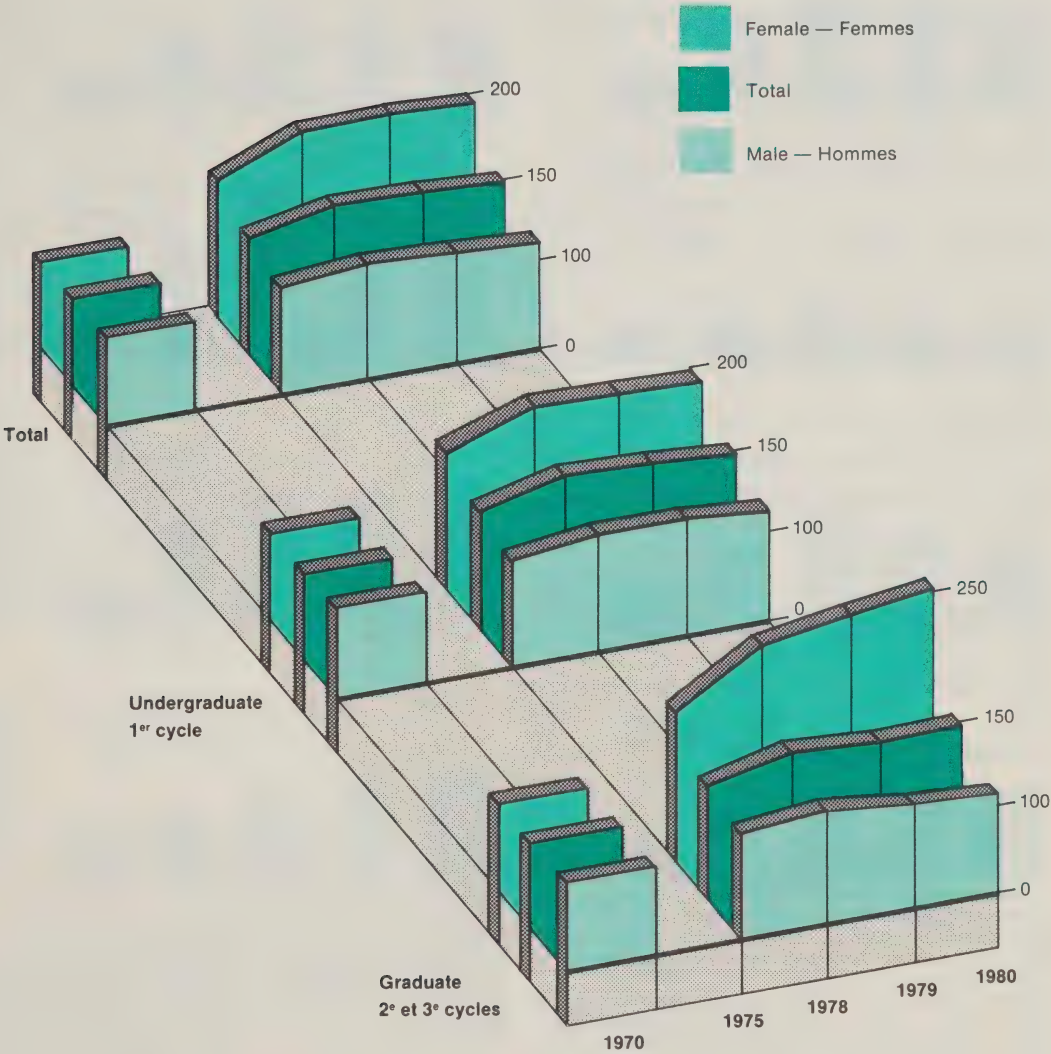

TABLEAU EXPLICATIF IV. Grades, diplômes et certificats décernés selon le niveau, le sexe et l'année, Canada

| Level and sex Niveau et sexe | 1970 | 1975 | 1978 | 1979 | 1980 |
|--|----------------------|-----------------|------------------|-----------------|-----------------|
| | thousands - milliers | | | | |
| Total number of qualifications - Nombre total de titres | 76.5 | 102.5 | 117.5 | 115.0 | 114.0 |
| Male - Hommes | 48.0 | 59.0 | 63.0 | 60.0 | 59.0 |
| Female - Femmes | 28.5 | 43.5 | 54.5 | 55.0 | 55.0 |
| Undergraduate - 1^{er} cycle | 65.5 | 88.5 | 101.5 | 99.5 | 98.0 |
| Male - Hommes | 39.5 | 49.0 | 51.5 | 49.5 | 48.5 |
| Female - Femmes | 26.0 | 59.5 | 50.0 | 50.0 | 49.5 |
| Graduate - 2^e et 3^e cycles | 11.0 | 14.0 | 16.0 | 15.5 | 15.5 |
| Male - Hommes | 8.5 | 10.5 | 11.0 | 10.0 | 10.0 |
| Female - Femmes | 2.5 | 3.5 | 5.0 | 5.5 | 5.5 |

Looking at the data for qualifications granted by field of study confirms certain recent observations, namely a shift from the liberal arts to the science fields. Despite the overall decline, the social, pure and applied sciences have actually continued their growth with the social science graduations more than doubling since 1970 (Text Table V and Figure 5), thus reaching 37,000 by 1980. This generalization, however, warrants a word of caution. The great majority of the observed increase in the above fields of study since 1970 is simply due to a few popular subjects: Business and Commerce almost tripled, Environment Studies grew from a negligible number to a thousand, Engineering up 60% and Computer Science increased 3-fold.

L'examen des données sur les titres décernés par discipline confirme certaines observations récentes, notamment un déplacement vers les sciences au détriment des arts. Malgré une baisse globale, les sciences sociales, les sciences pures et les sciences appliquées continuent à attirer un nombre croissant d'étudiants; ainsi, le nombre de diplômés en sciences sociales a plus que doublé depuis 1970 (tableau explicatif V et figure 5), pour atteindre 37,000 en 1980. Il ne faudrait tout de même pas généraliser puisque cette augmentation est due en grande partie à l'attrait de quelques disciplines: l'administration des affaires et commerce a presque triplé, l'études de l'environnement qui comptait un nombre négligeable a atteint mille étudiants, le génie a augmenté de 60% et l'informatique a triplé.

Figure 4
Growth in University Degrees, Diplomas and Certificates Granted, Canada

(1970=100)

TEXT TABLE V. Degrees, Diplomas and Certificates Granted by Year and Field of Study, Canada

TABLEAU EXPLICATIF V. Grades, diplômes et certificats décernés selon l'année et le domaine d'étude, Canada

| Field of study Domaine d'étude | 1970 | 1975 | 1978 | 1979 | 1980 |
|--|-------------|--------------|--------------|--------------|--------------|
| thousands - milliers | | | | | |
| Total number of qualifications - Nombre total de titres | 76.5 | 102.5 | 117.5 | 115.0 | 114.0 |
| Education - Éducation | 16.0 | 25.5 | 29.0 | 28.0 | 25.0 |
| Fine/applied arts - Beaux-arts/arts appliqués | 1.5 | 2.5 | 3.5 | 3.0 | 3.0 |
| Humanities - Humanités | 12.0 | 13.0 | 13.0 | 12.5 | 12.5 |
| Social sciences - Sciences sociales | 18.0 | 28.5 | 35.5 | 35.5 | 36.5 |
| Bus., com., etc. - Adm. des affaires, comm., etc. | 4.5 | 8.0 | 12.0 | 12.0 | 13.0 |
| Environment studies - Études de l'environnement | - | 0.5 | 0.5 | 0.5 | 1.0 |
| Agriculture/biological sci. - Agriculture/sci. biologiques | 4.5 | 6.0 | 7.5 | 6.5 | 6.5 |
| Engineering/applied science - Génie/science appliquées | 5.5 | 6.5 | 8.0 | 8.5 | 9.0 |
| Engineering - Génie | 5.0 | 5.5 | 7.0 | 7.5 | 8.0 |
| Health professions - Professions de la santé | 5.0 | 6.5 | 8.0 | 7.5 | 8.0 |
| Mathematics/physical sci. - Mathématiques/sci. physiques | 5.0 | 5.5 | 5.5 | 5.5 | 5.5 |
| Computer science - Informatique | 0.5 | 1.0 | 1.0 | 1.0 | 1.5 |
| Other - Autres | 9.5 | 9.0 | 8.0 | 7.5 | 7.5 |

These changes can also be observed from a different perspective. The proportion of graduations by discipline has changed since 1970. The social sciences used to make up 23.5% of total graduations; this proportion has now gone up to 32% giving an 8.5% differential. Small gains have also been made in education, agriculture, engineering, fine arts and related fields. The above growth in proportionate share of graduations has mostly been made at the expense of the humanities (-4%) and the non-specialized category (-6%).

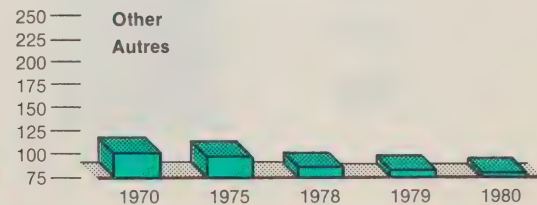

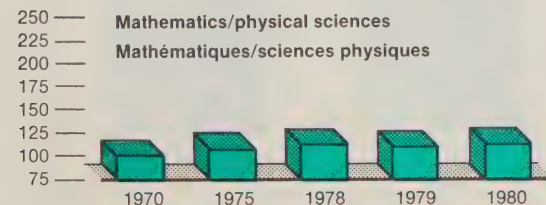

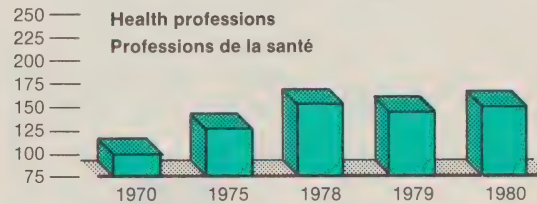

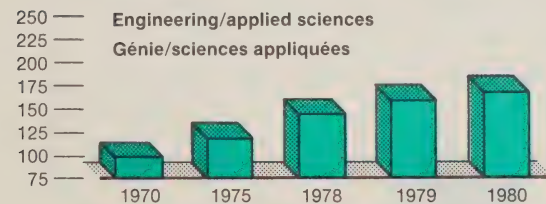

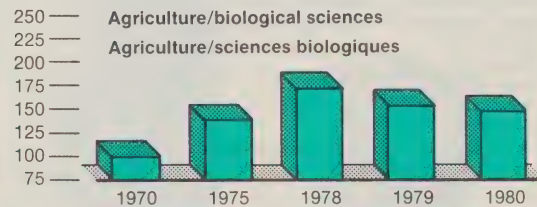

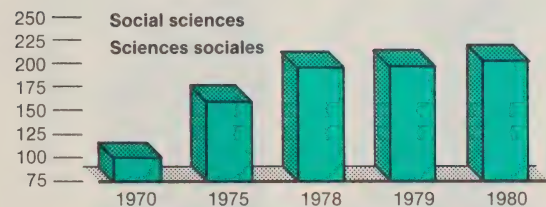

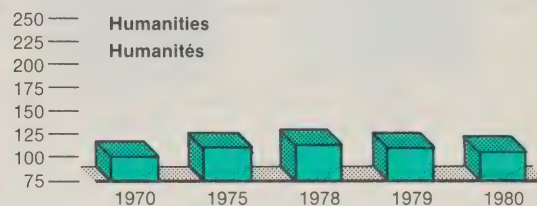

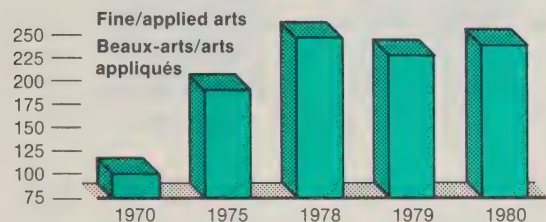

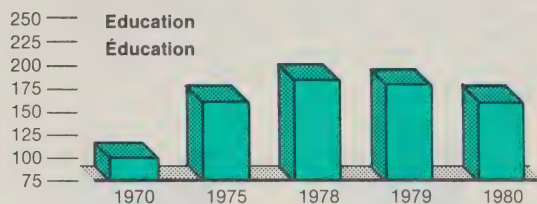

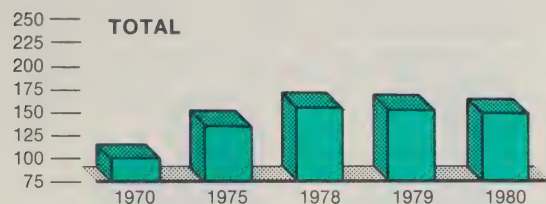

Ces variations peuvent également être observées sous un angle différent. Le nombre de titres décernés selon la discipline a changé depuis 1970. D'habitude 23.5% des titres étaient décernés dans le domaine des sciences sociales; cette proportion est passée à 32%, soit une différence de 8.5%. Bien que l'éducation, l'agriculture, le génie, les beaux-arts et les domaines connexes aient fait des gains minimes, l'accroissement dont il est fait état ci-dessus dans la proportion des titres décernés s'est en grande partie produit aux dépens des humanités (-4%) et des diplômés divers, non spécialisés (-6%).

Figure 5

Growth in University Degrees, Diplomas and Certificates by Field of Study, Canada

Augmentation du nombre de grades, diplômes et certificats décernés
selon le domaine d'étude, Canada

(1970=100)

Provincially, Text Table VI and Figure 6 indicate that the decline trend is not clear cut here either. While graduations in over half of the provinces peaked in 1978 or 1979, the situation is not as clearly defined in the other provinces. As for the proportionate share of graduations, the decade has seen an increase of 4% in Ontario, 1.5% in Quebec, a slight increase in Newfoundland and declines in the rest of the provinces.

Au niveau des provinces, le tableau explicatif VI et la figure 6 ne permettent pas de déceler de véritable tendance à la baisse. Si le nombre de grades accordés a atteint un sommet dans plus de la moitié des provinces en 1978 ou 1979, la situation n'est pas aussi clairement définie dans les autres provinces. Quant à la proportion des grades décernés par province, l'Ontario a connu une augmentation de 4% et le Québec, de 1.5% au cours de la dernière décennie; elle a légèrement augmenté à Terre-Neuve et diminué dans les autres provinces.

TEXT TABLE VI. Degrees, Diplomas and Certificates Granted by Province and Year

TABLEAU EXPLICATIF VI. Grades, diplômes et certificats décernés selon la province et l'année

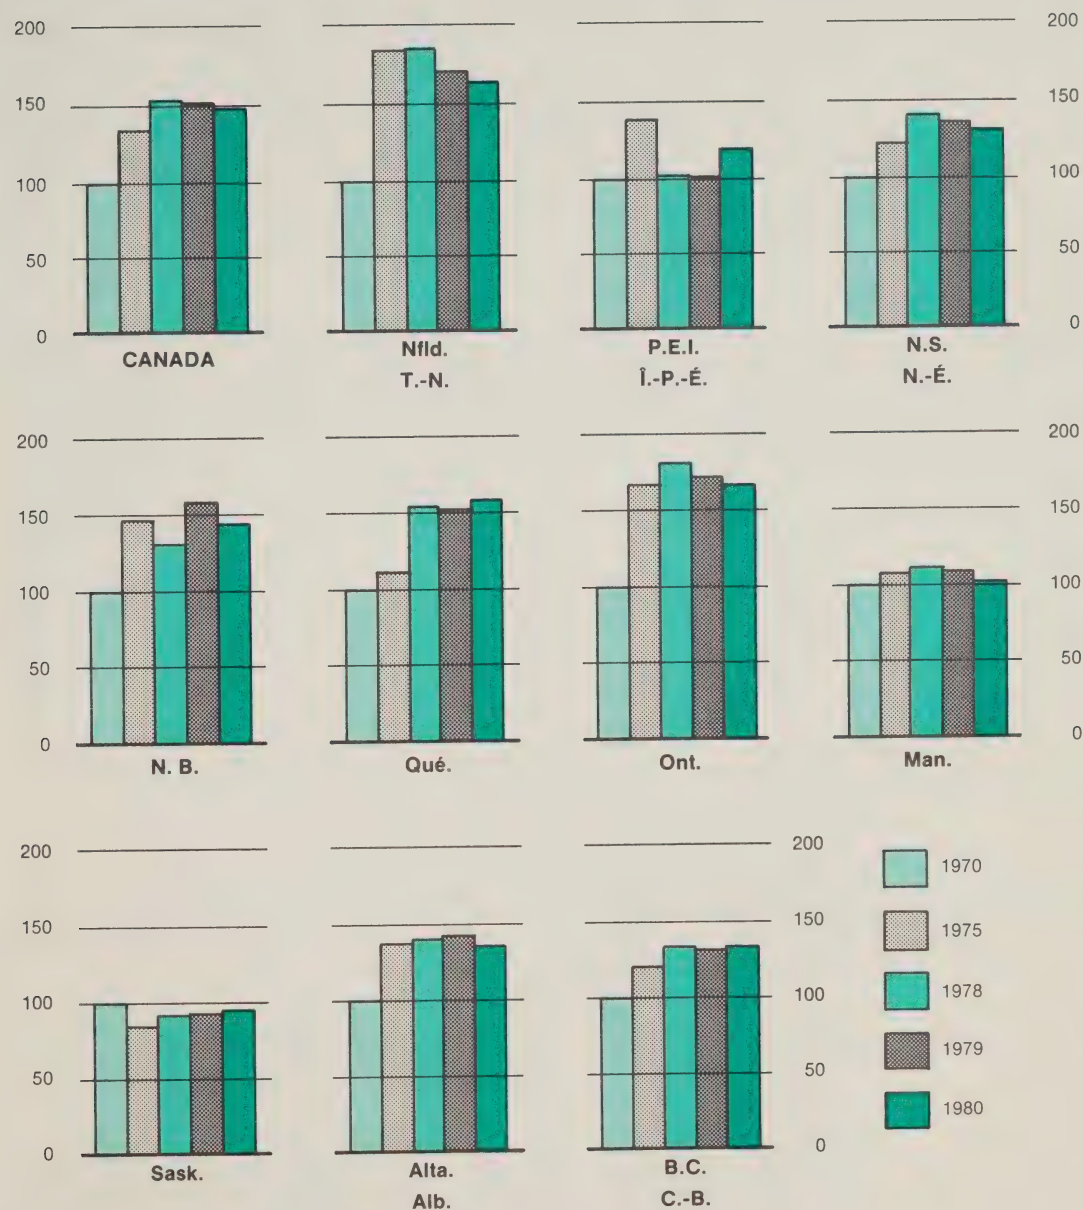

| Province | 1970 | 1975 | 1978 | 1979 | 1980 |
|--|----------------------|--------------|--------------|--------------|--------------|
| | thousands - milliers | | | | |
| Canada | 76.5 | 102.5 | 117.5 | 115.0 | 113.5 |
| Newfoundland - Terre-Neuve | 1.0 | 1.5 | 1.5 | 1.5 | 1.5 |
| Prince Edward Island - Île-du-Prince-Édouard | 0.5 | 0.5 | 0.5 | 0.5 | 0.5 |
| Nova Scotia - Nouvelle-Écosse | 4.0 | 4.5 | 5.5 | 5.5 | 5.0 |
| New Brunswick - Nouveau-Brunswick | 2.0 | 3.0 | 2.5 | 3.0 | 3.0 |
| Québec | 21.5 | 24.0 | 33.0 | 32.5 | 33.5 |
| Ontario | 27.5 | 45.0 | 49.5 | 47.0 | 45.5 |
| Manitoba | 5.0 | 5.5 | 5.5 | 5.5 | 5.0 |
| Alberta | 4.0 | 3.5 | 3.5 | 3.5 | 3.5 |
| Saskatchewan | 6.0 | 8.0 | 8.0 | 8.5 | 8.0 |
| British Columbia - Colombie-Britannique | 6.0 | 7.0 | 8.0 | 8.0 | 8.0 |

Tableaux 3 et 4

- ¹ Voir avertissement, paragraphe 4, page 7.

Tableaux 5 et 6

- ¹ Comprend les études en année préliminaire ou de rattrapage, le niveau non-universitaire (cours en technologie ou d'intérêt spécial non suivis pour l'obtention d'un titre), les auditions libres et toutes les autres inscriptions à un cours de 1^{er} cycle ne menant à aucune certification.
- ² Comprend l'année préparatoire de maîtrise, les auditions libres et toutes les autres inscriptions à un cours des 2^e et 3^e cycles non suivis pour l'obtention d'un titre.
- ³ Comprend les établissements affiliés qui ne sont pas représentés séparément.

Tableaux 8, 11, 12, 13, 14, 15 et 16.

- ¹ Voir avertissement, paragraphe 4, page 7.

Tableau 17

- ¹ Comprend les études en année préliminaire ou de rattrapage, le niveau non-universitaire (cours en technologie ou d'intérêt spécial non suivis pour l'obtention d'un titre), les auditions libres et toutes les autres inscriptions à un cours de 1^{er} cycle ne menant à aucun titre.
- ² Comprend l'année préparatoire de maîtrise, les auditions libres et toutes les autres inscriptions à un cours de 2^e et 3^e cycles non suivis pour l'obtention d'un titre.

Tableau 19

- ¹ Comprend les diplômes et les certificats.

Tableau 21

- ¹ Représente le total de tous les établissements affiliés à l'Université du Québec.

APPENDIX I

CLASSIFICATION OF DEGREES, DIPLOMAS AND CERTIFICATES

APPENDICE I

CLASSIFICATION DES GRADES, DIPLÔMES ET CERTIFICATS

| | Classification | Criteria - Critères |
|---|--|--|
| Degrees - Grades | | |
| Bachelor degrees - Baccalauréats | Undergraduate, Bachelor and First Professional - Premier cycle, baccalauréat et premier grade professionnel. | All Bachelor degrees, whether a first degree, professional or general are included in this group. Thus a B. Th. or B. Ed. requiring a prior Bachelor degree are included with this group. - Comprend tous les baccalauréats du 1 ^{er} cycle, professionnel ou général. Ainsi, un B.Th. ou un B.Éd., qui exige un premier baccalauréat, fait partie de ce groupe. |
| First Professional (neither Bachelor nor Master) e.g., M.D., D.M.D., D.D.S., D.V.M. - Premier grade professionnel (à l'exclusion du baccalauréat et de la maîtrise) c.-à-d., M.D., D.M.D., D.D.S., D.M.V. | Undergraduate, Bachelor and First Professional - Premier cycle, baccalauréat et premier grade professionnel. | All Professional degrees which are neither Bachelors nor Masters are counted in this category. - Comprend tous les grades professionnels autres que le baccalauréat ou la maîtrise. |
| Licences | Some undergraduate, some graduate - Certains étudiants du premier cycle, certains étudiants du deuxième cycle. | Those licences which follow a degree in the same field of study are considered equivalent to a Master, except for the Licences en Sciences Comptables from Université Laval which are classified with graduate diplomas. All others are included at the undergraduate level as equivalent to a Bachelor degree. - La licence obtenue à la suite d'un premier grade dans la même discipline est considérée comme l'équivalent de la maîtrise à l'exception des Licences en Sciences Comptables de l'Université Laval qui sont classées avec les diplômes supérieurs. Toutes les autres appartiennent au 1 ^{er} cycle et sont l'équivalent du baccalauréat. |
| Masters - Maîtrises | Graduate - Deuxième cycle. | All Masters, whether first professional such as M.S.W. or M.L.S., are included in this group. - Comprend toutes les maîtrises, notamment les premiers grades professionnels comme la maîtrise en service social ou la maîtrise en bibliothéconomie. |

CLASSIFICATION OF DEGREES, DIPLOMAS AND CERTIFICATES - Continued

CLASSIFICATION DES GRADES, DIPLÔMES ET CERTIFICATS - suite

| | Classification | Criteria - Critères |
|---|-----------------------------------|--|
| Degrees - Concluded - Grades - fin | | |
| Doctorates (Ph.D., D.Ed., etc.) - Doctorats (Ph.D., D.éd., etc.) | Graduate - Troisième cycle. | Only earned Doctorates are included in these statistics. - Ne comprend que les doctorats acquis. |
| Diplomas or certificates - Diplômes ou certificats | | |
| Diploma or certificate - Diplôme ou certificat | Undergraduate - Premier cycle. | <p>All diplomas and certificates awarded by degree-granting institutions for courses of study sanctioned by a diploma or certificate and not a degree, if the entry conditions to the course of study are similar to those for degree candidates. Example: Diploma in Dental Hygiene, diploma in Physio- therapy, etc. At the undergraduate level many diplomas and certificates awarded through extension studies are also included. There are a few diplomas of a non-university level, such as Lakehead's technology diplomas that are also classified in this group. - Tous les diplômes et certificats décernés par les universités ou les collèges à la suite de cours sanctionnés par un diplôme ou un certificat et non par un grade, si les conditions d'inscription au cours sont analogues à celles qu'on exige des étudiants inscrits en vue d'un grade. Exemples: diplôme en hygiène dentaire, diplôme en physio- thérapie, etc. Sont également compris au niveau du 1^{er} cycle bon nombre de diplômes et de certificats décernés à la suite d'un cours dit d'extension. Quelques diplômes de niveau non univer- sitaire, notamment le diplôme d'études techniques de Lakehead University sont également classés dans ce groupe.</p> <p>Diplomas and certificates following a first degree but in a different field of study from the first degree are included at the undergraduate level, e.g.: diplomas in Education following a general B.A. or B.Sc. - Les diplômes et certificats obtenus après un premier grade mais dans un domaine d'étude dif- férent sont pris en compte au niveau du 1^{er} cycle, par exemple, le diplôme en éducation obtenu à la suite d'un B.ès Arts ou B.ès Sciences général.</p> |

CLASSIFICATION OF DEGREES, DIPLOMAS AND CERTIFICATES - Continued

CLASSIFICATION DES GRADES, DIPLÔMES ET CERTIFICATS - suite

| Classification | Criteria - Critères |
|--|--|
| <p>Diplomas or certificates - Concluded - Diplômes ou certificats - fin</p> <p>Diploma or certificate - Concluded - Diplôme ou certificat - fin</p> | <p>Graduate - Deuxième et troisième cycles.</p> <p>All diplomas or certificates following a first degree in the same field of study are classified at the graduate level. Thus a Diploma in Education following a B.Ed. is classified at the graduate level, whereas one following a general B.A. or B.Sc. is classified as undergraduate. - Tous les diplômes ou certificats obtenus après un premier grade dans un même domaine d'étude sont classés au niveau du 2^e cycle. Ainsi, le diplôme en éducation obtenu à la suite du baccalauréat en éducation est classé au niveau du 2^e cycle, alors que celui obtenu après le B.ès Arts ou B.ès Sciences général est classé au niveau du 1^{er} cycle.</p> |
| <p>Registered Nurse Diplomas - Diplômes d'infirmière autorisée</p> | <p>Excluded - Non compris.</p> <p>R.N. Diplomas awarded by a degree-granting institution through affiliated hospital schools have been excluded. - Les diplômes d'infirmière autorisée décernés par un établissement conférant des grades par l'entremise d'une école d'hôpital affiliée ne sont pas pris en compte.</p> |
| <p>Secondary School Leaving Diplomas or Certificates, Matriculation Certificates - Diplômes ou certificats de fin d'études secondaires, certificats de "matriculation"</p> | <p>Excluded - Non compris.</p> <p>All secondary level diplomas and certificates have been excluded even if awarded by a degree-granting institution. - Ne sont pas compris les diplômes ou certificats d'études secondaires même s'ils sont décernés par un établissement qui confère des grades.</p> |
| <p>D.É.C. (Diplôme d'Études Collégiales)</p> | <p>Excluded - Non compris.</p> <p>D.É.C. awarded to students of affiliated institutions by certain Quebec universities have been excluded. - Ne sont pas compris les D.É.C. décernés par certains universités du Québec aux élèves d'établissements affiliés.</p> |
